No other makes or model/service provider is acceptable for the following reasons:

NAV HD 1500D is a highly sophisticated unit specially designed for providing safe AAMI standard water for dialysis. This product water and its purity are extremely important for patient's life and wellbeing. Hence, it is EXTREMELY IMPORTANT that only the above mentioned items are used with our NAV HD 1500D RO plant. Any product other than the above mentioned parts will seriously degrade the performance of our unit as well as the quality of water that it produces. These products are made by us after running lots of tests and experiments, thus they deliver the end product (here water) that surpasses AAMI standard requirements.
