06	Binocular Student Microscope, Model: AV51iB45	10 No. (Pathology Department)
07	Binocular Microscope, Brand: Magnus, Model: MLXi Plus LED	06 No. (Microbiology Department)
TOTAL=		324 Nos.

TERMS AND CONDITIONS OF THE GENERAL SERVICING OF MICROSCOPES

1. Cleaning of Lenses and Optics: All optical surfaces, including eyepieces, objectives, and condensers, must be cleaned professionally, with the removal of oil and dirt from immersion oil lenses using an appropriate solution.
2. Alignment and Adjustment: Proper collimation and image quality necessitate the examination and corrective alignment of optical components.
3. Examination of Mechanical Components: Inspection and resolution of any issues on mechanical components, such as rack and pinion, focusing knobs, and other parts of the microscope, are required.
4. Inspection of Electrical Components: To ensure proper functionality, checking the power cord, plugs, light source bulb, and other electrical connections for wear or damage is necessary. Additionally, inspecting the light intensity adjustment mechanism for proper function is required.
5. Calibration: Calibration of the focusing mechanism and verification of fine and coarse adjustments are necessary.
6. Lubrication: Lubrication of the moving parts of the microscope should be carried out if necessary.
7. Inspection for Wear, Damage, or Missing Parts: Identifying any wear, damage, or missing parts of the microscope and providing a list of required spare parts for replacement is essential.
8. Upon service reporting, the department will procure the listed spare parts for replacement. The required items for replacement would be procured by the institute separately. However, one visit for replacement of the faulty spare parts must be conducted without any additional charges.
